Thank you for purchasing the Rainbow Brush Drawing Activity Set! Before you start to play, get set up on a table or another flat, tough and clean surface and take everything out of the box. Carefully read the following instructions with an adult. You'll then be ready to create beautiful rainbow drawings, like a real artist!

### HOW TO USE RAINBOW BRUSH MARKERS

1. Pick the colors you wish to use and remove the markers' caps.
2. Snap the markers together in the dedicated notches (Image 1).
3. To create a rainbow-effect drawing, put your index on the rubbery part (Image 2) of the top marker and your thumb on the rubbery part of the bottom marker (Image 3).

You can practice on a draft sheet before drawing on the pre-printed illustrations. Change the markers' positions as you draw (snap and unsnap them) to obtain different rainbow effects. Amazing, you're already a real artist!

Once you have used all the pre-printed illustrations, you can draw on the blank drawing sheets and create anything you wish from your imagination! Great, you're becoming an expert!

Once you are done using your Rainbow Brush markers, unsnap them and put the caps back on them so they don't dry out.

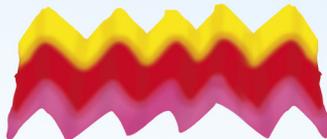

### HERE ARE A FEW RAINBOW BRUSH DRAWING TECHNIQUES

#### "Sunshine effect"

Snap as many markers as you want together. Squeeze the nibs together, place them on the sheet and turn the sheet of paper without moving the markers to obtain a beautiful "Sunshine effect".

#### "Zigzag effect"

Snap as many markers as you want together. Squeeze the nibs together and draw on your paper from top to bottom to create a cool "Zigzag effect".

#### "Firework effect"

Snap as many markers as you want together. Squeeze the nibs together and dab on the sheet of paper in the shape of your choice to create a beautiful "Firework effect".
